

Wellbeing of future generations community profile

Creuddyn - Conwy County Borough

Key points

Population characteristics - older age structure than Wales and GB, particularly high % aged 65+, with noticeable dip in 16-29 age group. Low net population growth in past 10 years. Population density relatively high. Ethnicity & religion significantly less diverse than national averages. Welsh speakers higher than Welsh average.

Health - limiting long term illness significantly above England & Wales average. High levels of hypertension, compared to Wales average.

Housing and living arrangements - pensioner only households much higher than national average. Average household size lower than average. Relatively high levels of owner occupation & low levels of social renting. House prices well above Welsh average. Affordability (income to houseprice ratio) particularly poor at lower quartile level.

Community safety - crime rates low compared to England & Wales figures, but high compared to Conwy CB average, particularly for theft & handling.

Economy - residents' employment in manufacturing, communications/finance/property, and professional/technical/scientific industries comparatively low. Comparatively high employment in accommodation & food services (tourism), health & social work and wholesale/retail. People aged 50+ make up a larger proportion of unemployed claimants than average.

Income and benefits - income levels below national average. Relatively high proportion of people claiming incapacity benefits.

Poverty & deprivation - high proportion of children in families claiming Working Tax Credits, particularly 'in-work' families. Higher than average levels of deprivation in the community safety domain of the Welsh Index of Multiple Deprivation.

These statistics may be used under the terms of the Open Government Licence.

November 2016

Heart failure		1.2%	1.2%	1.0%	
Cancer		3.0%	3.1%	2.6%	
Dementia		0.9%	1.0%	0.6%	

* lung diseases including chronic bronchitis and emphysema

Based on clusters of GP surgeries as identified by local health boards. The health boards have formally developed arrangements for small groups of GP practices to work collaboratively to develop services in the community, serving populations of between 30 and 50 thousand patients. Clusters are best fit to the sub areas and do not exactly match the same boundaries.
